

FRONT FACEPLATE
DETAIL

Gasoline Health and Safety Warnings
Extremely flammable vapors may explode. Harmful or fatal if swallowed. Long term exposure to vapors has caused cancer in some laboratory animals. Chemicals known to the state of California to cause cancer, birth defects, or other reproductive harm are found in gasoline, crude oil, and many other petroleum products and their vapors, or resins from their use. Read and follow label directions and use care when handling or using all petroleum products. (California Health and Safety Code § 25249.5)
 • Avoid prolonged breathing of vapors.
 • Keep face away from nozzle and vehicle fill opening.
 • Keep away from eyes and skin.
 • Never siphon by mouth.
 • Do not overfill tank.
