Project
CARY VILLAGE MALL

PLANTING PLAN

Date
JUNE 1, 1989
 Scale
1"=50'
 Sheet

L-1

NOTE

Concurrent with (or prior to) application for building permits - other than that for the overall building shell - detailed plans for anchor entrance and foundation treatment will be submitted to the Town of Cary for review and approval. Such plans shall include building elevation views and specifications of materials, colors, walkway paving types and detailed landscape treatment for the anchor entrances and foundations. The proposed treatment shall be complementary to the overall architectural and landscaping treatment of the existing mall. It is understood that these specific treatment plans shall be routed through the town's normal site plan approval process.

Notes:

1. This plan is for planting purposes only. For any information relating to grading, etc. refer to grading plan.
2. All grass to be "Rebel" Fescue.
3. All plants and planting procedures shall meet or exceed A.A.N. standards as set by "American Standard for Nursery Stock", 1986.
4. All shrub and plant beds shall be mulched with 3 inches of clean pine bark mulch unless otherwise noted.
5. All plant locations adjacent to tree save areas shall be verified in the field by the landscape architect.
6. All trees and shrubs shall be full, well-branched plants characteristic of the species.
7. As a minimum, the top 18" of all planted islands shall be a clean, sandy loam containing at least 25% decomposed organic matter by volume. Soil shall be delivered in a loose, friable condition.

NOTE

Concurrent with (or prior to) application for building permits - other than that for the overall building shell - detailed plans for food store entrance and foundation treatment will be submitted to the Town of Cary for review and approval. Such plans shall include building elevation views and specifications of materials, colors, walkway paving types and detailed landscape treatment for the food store entrance and foundation. The proposed treatment shall be complementary to the overall architectural and landscaping treatment of the existing and proposed mall. It is understood that these specific treatment plans shall be routed through the town's normal site plan approval process.
