

VEHICULAR USE AREA PLANTING STANDARDS

Perimeter Screening
BETWEEN VEHICULAR USE AREAS
OF ANY VEHICULAR USE AREAS

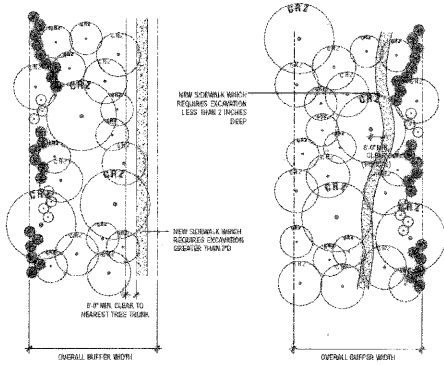

- NOTES:
 - Planting is required for 100% of the length of the parking area.
 - Size of the planting depth may remain uncontrolled.
 - Subgrade and drainage that cut through the screen, separating the Vehicular Use Area to vehicle and other activities, are not included in the calculations.
 - Screening materials should be in contact with the vehicle use areas.
 - Native species may be permitted within the perimeter screen to allow for pedestrian access.
- REVISIONS:
 - REF: REC: 14.1.02
 - REVISION:
- DETAIL NO: **LA-13**
