

**CONSTRUCTION SEQUENCE**

1. Obtain erosion control plan from the Town of Cary.
2. Install tree protection fence as shown on the plans.
3. Obtain grading permit from the Town of Cary.
4. Install all erosion control devices shown on the plans.
5. Call Cary Erosion Control Officer for on-site inspection. Receive certificate of compliance.
6. Begin grading operations, and utility, storm and roadway installation.
7. Maintain erosion control devices, removing accumulated sediment from sediment traps, silt fence outlets and check dams when it reaches half the height of the outlet.
8. Public roadways adjacent to the project shall be kept clean at all times.
9. As work is completed and finish grades are established for each phase, seed and mulch denuded areas.
10. After denuded areas are re-established with seeding, clean out proposed ponds acting as sediment traps, re-establish forebays, and rip-rap spillways.
11. When areas have stabilized or phases have been completed, call for on-site inspection with Town of Cary Erosion Control Officer. If disturbed areas are stabilized, receive certificate of completion. At that time, remove erosion control devices and seed and mulch all remaining disturbed areas denuded from removal of said devices.

TOTAL DISTURBED AREA = 67.16 ACRES
